SIRONE 1962

Da oltre 50 anni, la continua ricerca sul colore, l'attenzione all'utilizzo di materie prime selezionate garantiscono il successo della gamma CE.SI., un progetto organico di prodotti da pavimento e rivestimento dalle tinte sature e brillanti.

Since more than 50 years, the restless colour research, the care in choosing only high selected raw materials, make the success of CE.SI. range, an harmonic gradation of products suitable for walling and flooring.

I prodotti CE.SI., antibatterici, ingelivi e antiacidi, ideali per soddisfare le richieste di professionisti e privati , riscuotono apprezzamento sia a livello nazionale che estero, trovando impiego in centri benessere, palestre, piscine, case private, uffici, asili, scuole, rivestimenti esterni...

CE.SI. products are anti bacterial, frost and acid resistant, high appreciated, they are suitable for SPA projects, fitness centers, swimming pools, private livings, schools, facades...

FORMATI E MODULARITÀ

SIZES AND MODULARITY

MOSAICI

MOSAICI

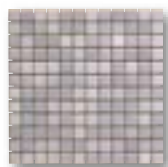

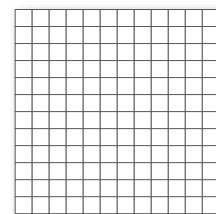

La serie Mosaici offre una gamma di colori miscelati, sfumati e in tinta unita. Tessere di 2,5x2,5 assemblati su fogli di rete di 30x30 cm, la gamma si sviluppa su superfici lucide e opache in gres porcellanato. La vetrificazione dello smalto, cotto ad altissime temperature, consente di ottenere superfici più luminose e contrastate che esaltano tutte le qualità del colore.

The mosaici collection offers a range of plain, mixed or shaded hues spread over tiles 2,5x2,5 in colour size. Offered in the mesh-backed 30x30 size, the range develops over glossy and matt surfaces in porcelain stoneware. Vitrification of the glaze, baked at extremely high temperatures, allows more luminous and contrastier surfaces to be achieved that magnify all of the colour's qualities.
