41zero42 è una storia giovane, aperta al futuro. E' un collettivo italiano di professionalità, che insegue il concetto di bello basato sull'eccellenza delle performances, attenta nel cercare un equilibrio tra ricerca, innovazione, tendenze e mercato. Diretta da un team di giovani manager che si muove a livello internazionale per affrontare nuove sfide e possibilità.

Le idee e l'approccio sono liberi dalle logiche passate che hanno sin qui orientato le collezioni ceramiche.

Negli ultimi anni il mondo ceramico si è evoluto e trasformato.

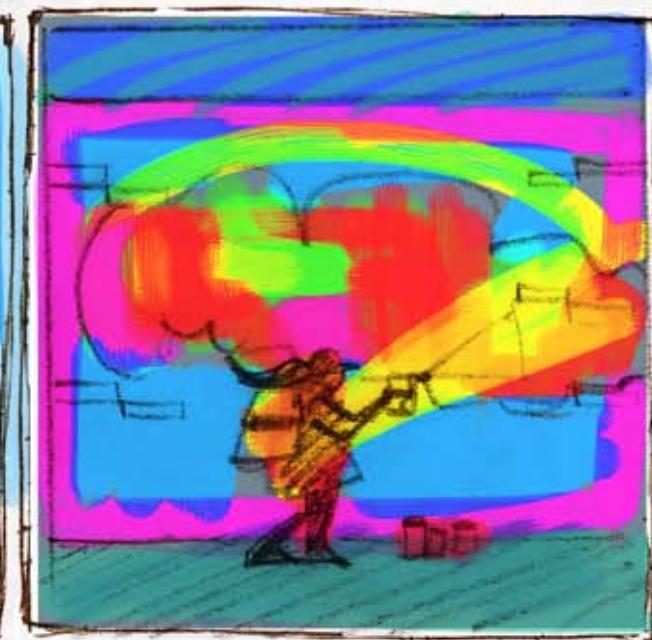

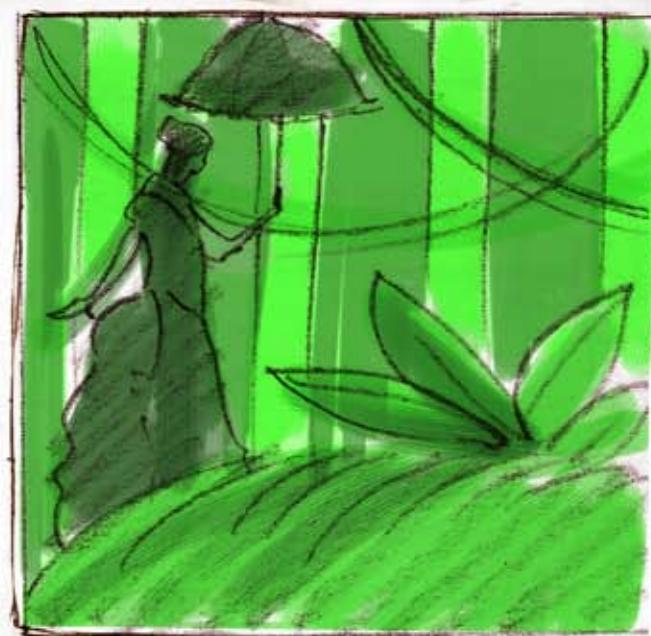

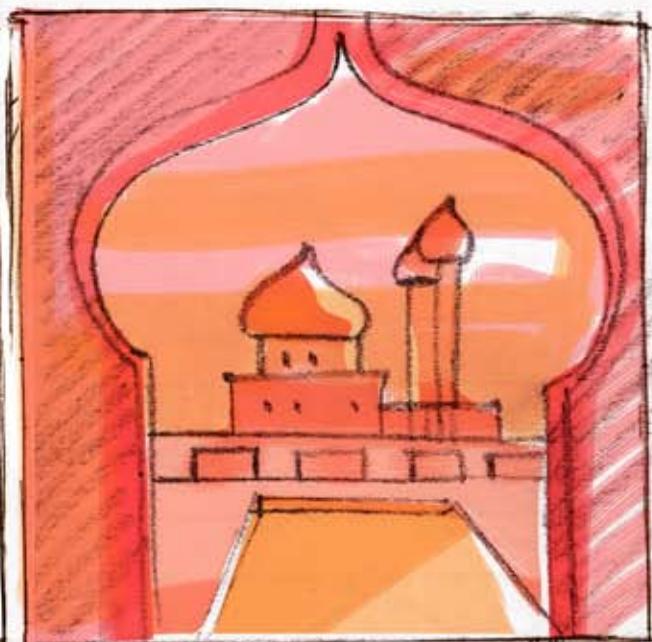

Ricerca e tecnologia hanno favorito una nuova dimensione alle piastrelle, prima ignorate dai progettisti e considerate solamente quale alternativa economica dei prodotti nobili, sono oggi considerate in molti casi, una opzione primaria da valutare nella offerta tra legni, pietre, malte e altri prodotti da pavimentazione e rivestimento.

La fusione tra: tecnologia, resa estetica, performances, praticità di utilizzo, ricerca, innovazione e made in italy sono la mission di **41zero42**.

41zero42 is a young project open to the future; an Italian team of professionals that focuses on the concept of beauty based on the excellence of performances, bearing in mind an even balance between research, innovation, trends and market demands. The enterprise is directed by a team of young managers who work internationally to face new challenges and potentials. The ideas and the approach are free from past logics that have conditioned the ceramic tile.

The world of ceramic tiles has evolved and changed over recent years. Research and technology have renewed tiles, which in the past were ignored by designers and were considered just an economic alternative to more noble products, but which are now considered a primary option in many cases, to be taken into consideration among the offers of wood, stone and mortar and other floor and tile products.

The merging of technology, appearance, performance, practical use, research, innovation and "made in Italy" is the mission of **41zero42**.

Affascinati dal mondo dei rivestimenti, abbiamo cercato soluzioni nuove che potessero esprimere al meglio il linguaggio della nostra visione. In questo modo, forme, colori, emozioni prendono vita su una lastra di ceramica estremamente sottile, elemento duttile e innovativo per arredamento e design. La forza emozionale, evocativa e d'impatto dei temi, richiama atmosfere, talvolta lontane e seducenti. La visione alimenta il pensiero e rimanda a concetti e idee fortemente sensoriali, che cambiano da persona a persona, a seconda del proprio background culturale.

Nascono così 5 racconti, differenti e unici:

Dario.

Visioni e profumi di una Persia smarrita nel tempo.

Jane.

Il viaggio di una ragazza inglese in Amazzonia.

Lola.

L'esuberanza dei colori.

Karl.

Il caos ordinato delle linee.

Elsa.

Il circolo letterario elegante e sofisticato.

Fascinated by the world of coatings, we tried new solutions that could better express the language of our vision. In this way, shapes, colors and emotions come to life on an extremely thin ceramic plate, flexible and innovative element for decoration and design.

The emotional force and impact of these themes, recall atmospheres that may sometimes be distant and fascinating. The vision feeds the mind leaving thoughts and concepts, which vary from person to person, depending on your cultural background.

This is how 5 different and unique stories are conceived:

Dario.

Visions and fragrances of Persia lost in time.

Jane.

The journey of an English girl in the Amazon.

Lola.

The exuberance of colors.

Karl.

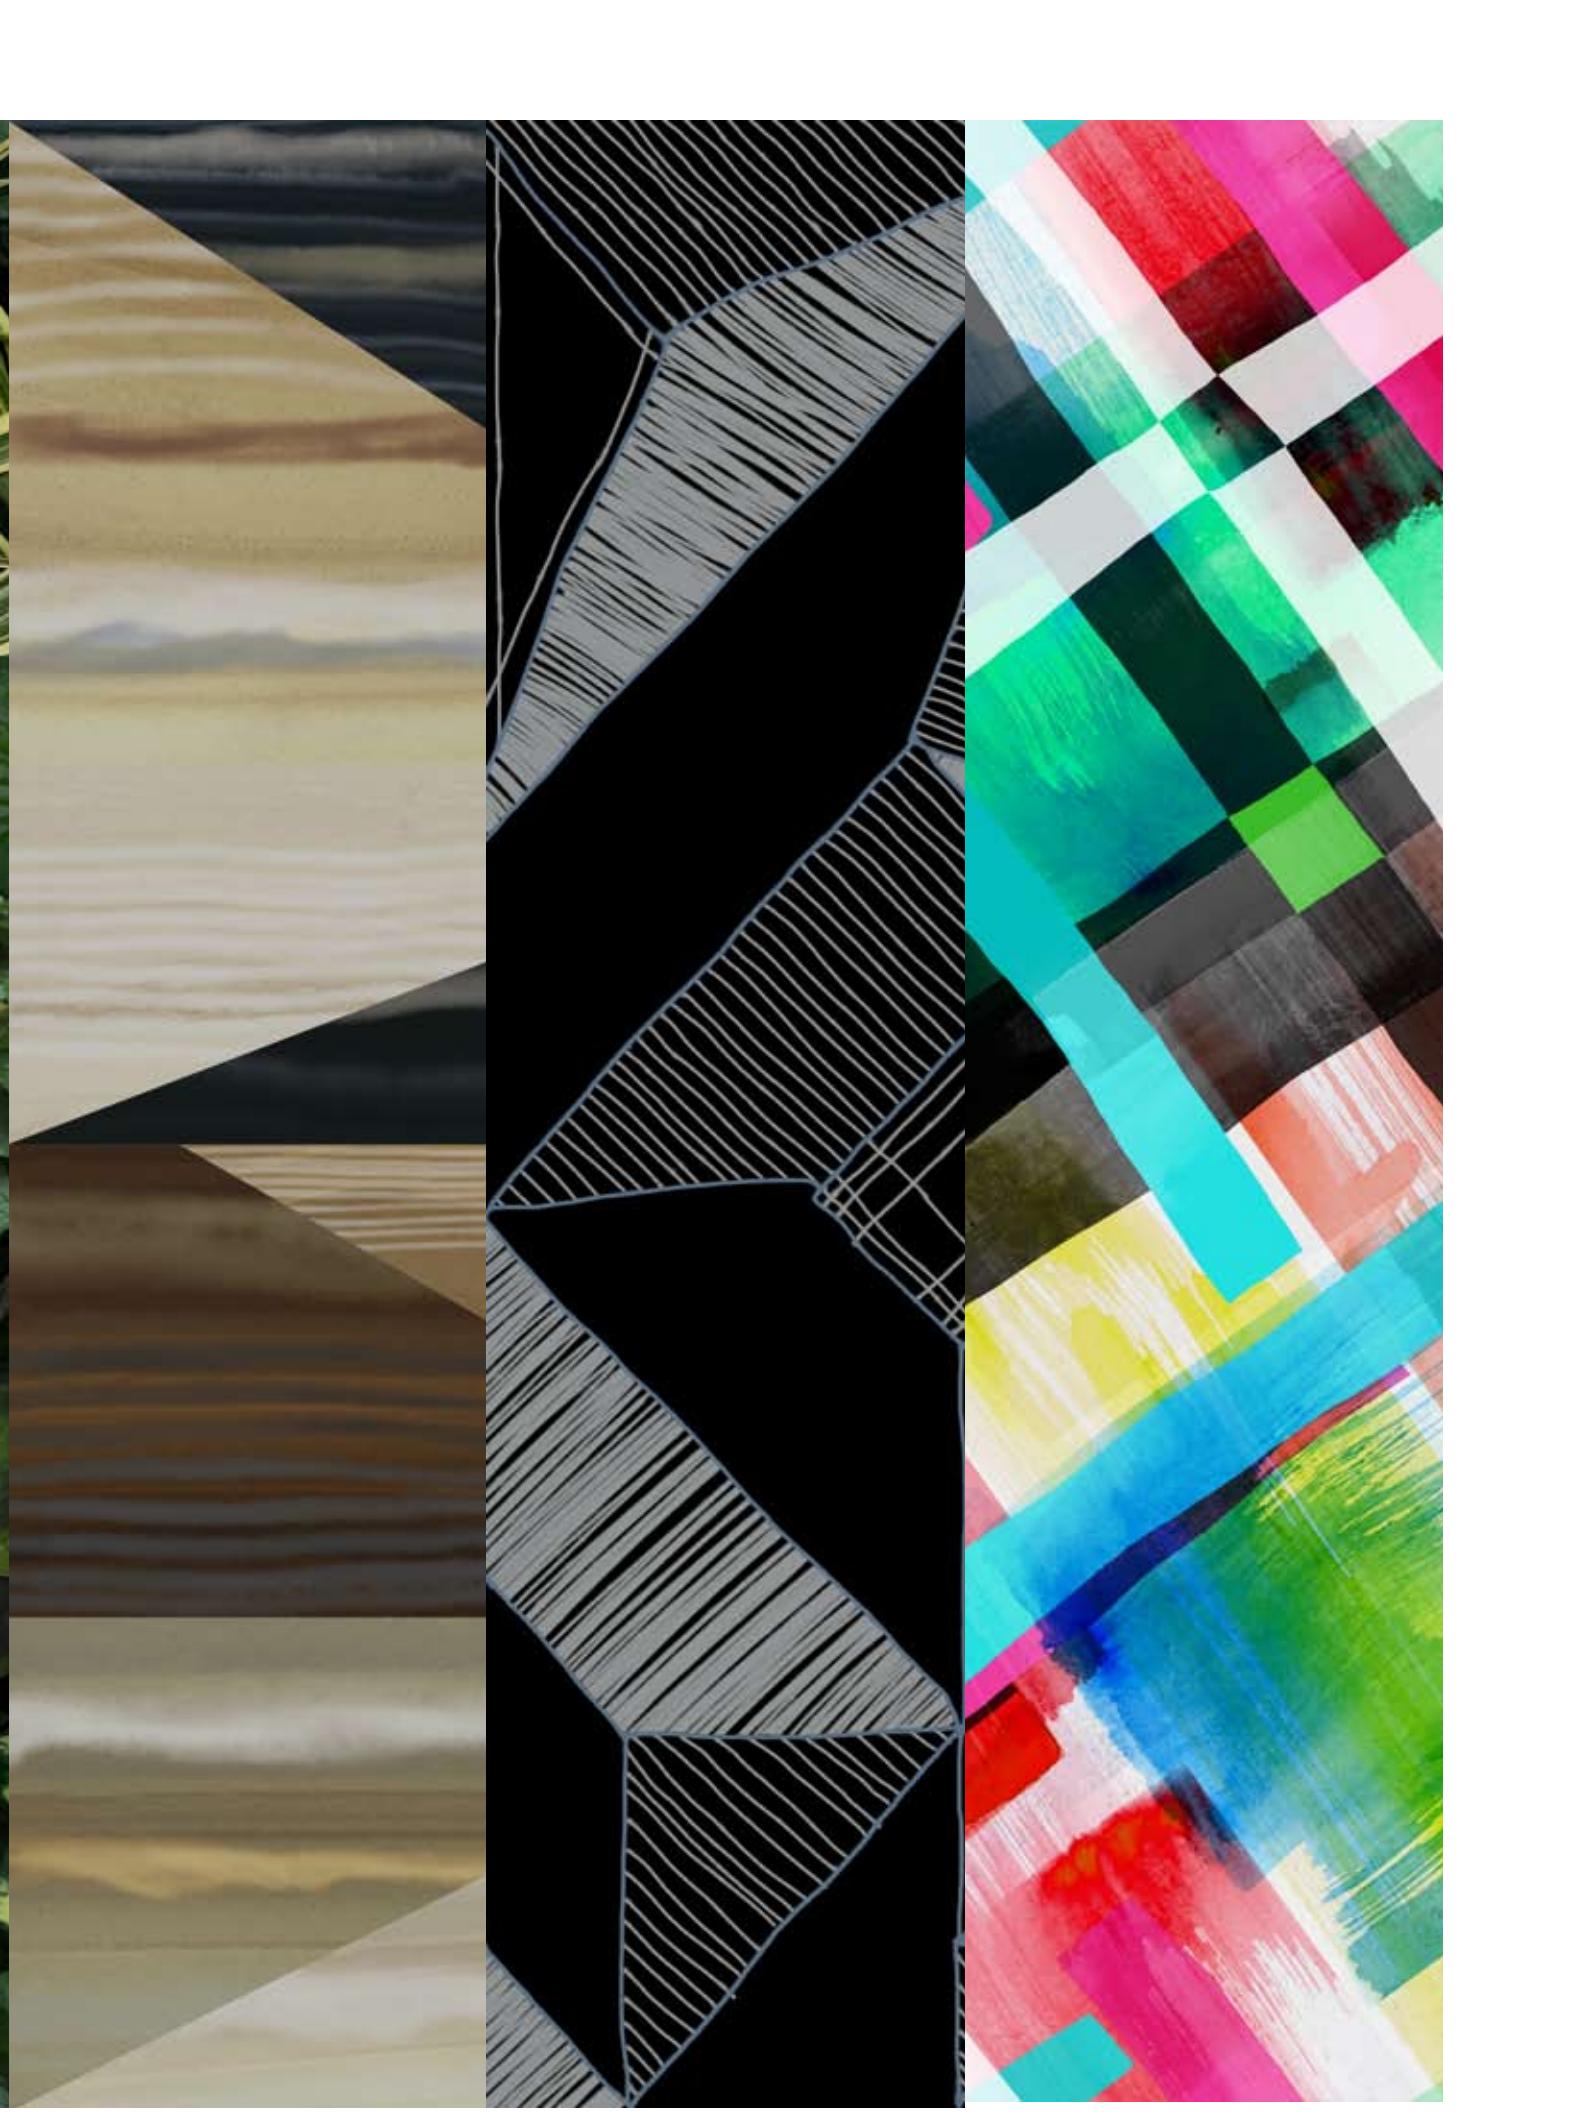

The orderly chaos of lines.

Elsa.

The literary circle, elegant and sophisticated.
